Introduction

Prove your competence in felling larger trees with the Lantra SCQF Level 5 in Felling and Processing Trees over 380mm.

These qualifications are requirements for Professional Users to operate chainsaws in the UK.

Overview in brief

Our course will enable you to prove your knowledge, understanding, and competence in forestry and arboriculture operations.

If you achieve this award, you'll have the opportunity to move on to a recognised qualification that reflects the national standard.

This will help boost your career prospects.

For professional chainsaw operators working in forestry and arboriculture the industry recommendation is that for 'high risk' activities the minimum level of adequacy of training is to a certificate of competence or nationally recognised qualification where assessment is carried out independently of

the training. **This qualification meets this requirement.**

The finer details

Our course involves a balanced mix of theory and practical sessions.

So you'll gain specialist knowledge into how to work safely.

And you'll also develop your, skills to industry best practice standards.

Quality Assurance policies are in place to ensure that all assessments meet the independent assessment requirements for this sector.

Who should attend?

The units/Qualifications will enable those who are successful to continue and complete further training and/or assessment within the forestry and arboriculture sector, including full-time competency-based qualifications and , specialised qualifications at the same or higher level.

Learners may choose to progress on to forestry and/or arboriculture Scottish Vocational Qualifications (SVQs), an apprenticeship framework and/or Higher National Certificates/Diplomas (HNC/Ds).

Certification is required for all professional forestry and arboriculture operations and is supported by industry good practice guidance, 'training and certification'.

The Qualifications may also enable progression in the workplace.

What will be covered?

By the end of this course, you'll:

- Be able to promote health and safety and industry good practice
- Be able to fell and process trees over 380mm
- Understand relevant health and safety legislation and industry good practice
- Understand how to fell and process trees over 380mm
- Understand how to remove branches from felled trees using a chainsaw
- Understand how to take down hung-up trees.
