

Temporary Traffic Management Basic Course

At a glance...

NHSS

Duration Notes:	1/2 day training - no assessment required
Recognised by:	National Highways, Transport Scotland, Welsh Assembly and Transport NI on their motorways and high speed dual carriageways rural and urban road networks
Prerequisites:	There are no pre-requisites for this course

Introduction

NHSS12 TTMBC – Trainee category allows you to work on the highway network as a trainee working under a qualified operative and/or supervisor depending on the 12 scheme and road type

The finer details

This course will introduce you to:

- Quality Assurance & NHSS 12
- Terminology
- Health, Safety & Environmental Awareness
- Equipment
- Safety Zones
- Basic Principles of Temporary Traffic Management
- Basic site practices
- Maintenance

Who should attend?

For all persons starting work for the first time in the temporary traffic management industry, and for those persons that do not hold any current NHSS12ABCD certificates or cards and for those who have held any NHSS

12ABCD skills that have expired by more than 2 years. M7 is a stand alone category and does not remove the requirement for TTMBC.

What will be covered?

On completion of this course learners will be able to demonstrate a knowledge and understanding of:

- Health, safety and environmental procedures
- Health & Safety principles
- The risk assessment process
- Personal protective equipment
- The highway environment
- National Highway Sector Schemes 12A/B, 12C & 12D
- Types of road and terminology
- Temporary Traffic Management equipment
- Temporary Traffic Management vehicles, usage and specifications
- Basic Principles of Temporary Traffic Management
- Vehicular access & egress of road work sites

Other areas of interest

As the TTMBC is a foundation trainee course it is expected that as part of your career progression that you move on to complete one of the other 12ABCD operative courses and not retake the TTMBC.

The NHSS 12AB Operative course, for working on static TTM on motorways and high speed dual carriageways, cannot be taken until 3 months after the TTMBC is completed as it is a requirement of this scheme for the person to gain 3 months 'on the job' experience prior to completing the operative course. For more information please search for 12AB Operative course on our website.

The NHSS 12C Operative course, for mobile lane closures on motorways and high speed dual carriageways, can be taken immediately after the TTMBC as there are no other prerequisites. For more information on this course please search for 12C Operative course on our website:

The NHSS 12D T1/T2 course, for working on single carriageway urban and rural roads, can be taken immediately after the TTMBC as there are no other prerequisites. For more information on this course please search for 12D T1/T2 course on our website.

The NHSS 12 IPV course, for the use of Impact Protection Vehicles in different scenarios, can be taken immediately after the TTMBC course but has varied assessment rules. For more

information on IPV courses and assessments please search for Impact Protection Vehicle on our website.
