Qualification

Duration Notes: The expected guided learning hours is 70 hours, however please note this may vary according to factors such as level of experience, modules or attachments selected, or the ratio of Assessors to Learners.

Recognised by: This qualification is supported by ConstructionSkills, the Skills Council for construction and the built environment.

Introduction

Becoming proficient in plant operations is an essential and valued skill for work in the construction, planning and the built environment sector.

Overview in brief

The Lantra Awards Level 2 NVQ Certificate in Plant Operations (Fork-lift Trucks) is a Competency Based Qualification (CBQ) based on the occupational standards for construction and the built environment, which were set and designed by ConstructionSkills, and which exist to ensure that personnel working within industry meet the required minimum standards.

The qualification will provide you with the knowledge, understanding and skills required for plant operations specialising in fork-lift trucks.

The finer details

This qualification has been designed to develop your knowledge, understanding and skills in the operation of plant machinery and will enable you to work safely, effectively and efficiently in the workplace. It provides the opportunity to achieve a nationally recognised qualification that reflects the recognised occupational standards for the activities you carry out. These qualifications will enhance your ability to work safely, effectively and efficiently in the workplace, reducing unnecessary risks to yourself and others.

This qualification aims to assess your knowledge and understanding relating to:

- Conforming to general health, safety and welfare in the workplace

- Conforming to productive working practices in the workplace
- Preparing and operating plant in the workplace.

The assessment will consist of a portfolio of evidence and observation of performance in the workplace.

Further information on unit content can be found in the Qualification Specification and Appendix A.

This qualification is available for individuals aged 18 and above.

Who should attend?

This qualification is for you if you are currently working - or are looking for work - and wish to develop your knowledge, understanding and skills in plant operations.

What will be covered?

At the end of this qualification, your knowledge, understanding and skills will have been assessed in the following areas:

- Conforming to general health, safety and welfare in the workplace
- Conforming to productive working practices in the workplace
- Preparing and operating plant in the workplace.
