Introduction

A comprehensive training program designed to equip individuals with the knowledge required to excel in the roof cleaning industry.

Overview in brief

Our course, which is accredited by leading industry bodies, offers hands-on experience and theoretical instruction.

This comprehensive training program is designed to equip individuals with the knowledge necessary to become proficient in the roof cleaning industry.

The finer details

Through a combination of theoretical instruction and hands-on practice, participants will learn essential techniques, including effective roof cleaning methodologies and the proper use of specialised tools. We will delve into the application of biocides and their importance in maintaining roof health, while ensuring compliance with health and safety regulations.

To facilitate career advancement, our course provides guidance on obtaining industry-recognized accreditations. Participants will also gain insights into the step-by-step process of completing roofing process.

Who should attend?

People wanting to set up exterior cleaning businesses.

Existing providers of exterior cleaning services who now wish to provide roof cleaning services in a professional manner and skip years of learning on the job.

Companies with teams that require group training sessions to ensure health and safety considerations are taken into account.

What will be covered?

Roof Cleaning Methodologies -

To understand the four main methodologies, pros and cons and what is required to offer these services.

Tools to accomplish the work –

To have handled and used the tools to support the four main cleaning methodologies.

Chemicals to use -

When to use chemicals and safe, label compliant application thereof.

Health and safety requirements –

To understand what the law requires in offering this service.

Accreditation –

An appreciation for the need thereof to demonstrate competency and proficiency.

The on-site process -

From arriving on the day, to completing the work.
